# U.S. EXPORT SALES

- Outstanding Export Sales  
(Unshipped Balances)  
on JUNE 26, 1977

- Export Shipments in  
Current Marketing Year

- Daily Sales Reported

JUNE 27, - JULY 3, 1977

--As Reported by Exporters

Outstanding export sales as reported by private exporters and compiled with other data in this release give a snapshot view of the current contracting scene. At any given time in the course of a marketing year outstanding sales do not bear a consistent relationship to eventual export shipments. A meaningful export projection is not obtainable by the simple device of adding outstanding sales to exports to date. The latter data, alone, may provide a more reliable measure of current export activity than may be derived from a year-to-year comparison of outstanding sales.

EXPORT SALES REPORT

Comments on release of July 7, 1977, (based on reports from exporters for the week ending June 26 unless otherwise noted):

Wheat: Sales activity, at 363,300 metric tons (MT), was extremely slow with unknown destinations accounting for more than a third of the total. Taiwan, Korea, Venezuela and Japan were the only significant buyers. Under the daily system, sales to unspecified destinations of 246,650 MT for the current marketing year (MY) and 177,812 MT for 1978/79 were reported. Export volume returned to a more respectable rate.

Corn: Sales volume improved after last week's poor showing. Notable buyers included Korea, Portugal, Egypt, West Germany, Mexico and Japan. Sales to the USSR declined as 50,000 MT was shifted to optional origins. Destination switches from both known and unknown were reflected in increased sales to the U.K., West Germany and Mexico. Under the daily system, sales of 250,000 MT to Japan and 150,000 MT to unknown destinations were reported for 1977/78. Exports increased to 858,000 MT.

Barley: Activity in the export market was fairly light as sales to Jordan and unknown destinations were the major new developments. Total sales to Korea rose by 25,000 MT as the U.S. was selected as the seller on optional origin sales.

Sorghum: Interest picked up, running the heaviest in weeks. Mexico generated most of the action as their current MY purchases swelled to 554,000 MT. Japan and Israel also added to previous purchases. Guatemala cancelled purchases of 40,000 MT. A number of adjustments in optional origin sales to Japan and Mexico resulted in a net reduction of 83,900 MT in total optional origin sales. Exports posted another fairly strong week.

Soybeans: The market was rather uninspired with few new sales and exports the smallest yet for the current MY. Korea and Mexico added to earlier purchases. Portugal made their initial purchase for 1977/78, while a number of EC countries added to their total purchases. Optional origin sales fell as reports indicated that 31,300 MT to the USSR was being supplied by other than U.S. origin.

Soybean Cake and Meal: Sales activity was on the minus side for the second consecutive week as cancellations more than offset minor new sales. Most of the reduction in 1976/77 sales to unknown destinations was the result of a shift in sales to 1977/78. An optional origin sale of 16,500 MT to West Germany for 1977/78 was also reported.

Soybean Oil: The market was fairly quiet as Peru purchased 5,500 MT and 5,100 MT was switched from unknown destinations to Pakistan. Exports continued heavy with India (10,200 MT) and Pakistan (7,100 MT) the principle lifters.

Rice: New sales to Indonesia and a shift of sales to the next MY for Iran were the week's highlights. Indonesia's most recent PL-480 rice purchase of 74,300, covering both the current and next MY, was reported. Iran shifted 20,000 MT of long grain purchases forward to the next MY. Exports were modest.

Cotton: The pattern of sales activity continued unchanged from that of the last several weeks with only minor sales for MY 1976/77 and a good level of sales for 1977/78. These sales were primarily to Korea (80,600 RB) and Japan (31,800 RB). Exports declined to 81,600 RB, 89 percent going to Asia.

Oats: Showed no significant activity.

Data shown above may not add due to rounding. 1/Includes increase resulting from new sales, upward contract adjustments, shifts in delivery period from one marketing year to another and changes from one commodity to another. 2/ Net foreign purchase activity. A purchase from a foreign seller is a transaction contracting to buy U.S. produced commodity from a firm outside the U.S. -- not involving a cancellation or buy-back of a reported sale. 3/ Includes decreases resulting from buy-backs of all or part of a contract balance by mutual consent, unilateral cancellation by one party which could result in a contract dispute, downward contract adjustments, shifts in delivery period from one marketing year to another, and changes from one commodity to another. 4/ Does not include exports for exporter's own account.
